

QUIERO LLC

Refund Policy

English Version

At QUIERO, we want you to purchase your eSIM with peace of mind. This policy explains when you can request a refund for a data plan purchased with us. All requests are evaluated in good faith and in accordance with these terms.

1. General Requirements

- Timeframe: you may request a refund up to 6 months after the purchase date. After this period, we will not be able to process returns.
- Purchase channel: the eSIM must have been purchased on our website or application. Purchases from distributors are subject to the distributor's refund policy.
- Refund method: refunds will be issued to the same payment method used in the purchase, typically within 5 to 10 business days after approving the request.

2. Refund for Withdrawal

If you have changed your plans and no longer need your eSIM, we will offer a 100% refund provided that:

1. The eSIM has not been activated and the QR code has not been scanned.
2. No plan data has been used.
3. The purchase was made less than 6 months ago.

If the eSIM has already been activated or used, we will evaluate your case to offer an appropriate solution, which may consist of a partial refund proportional to the unused value of the plan.

3. Refund for Incompatible or Locked Device

If the eSIM is not compatible with your device or the device is locked, we will issue a full refund provided that:

4. You have not scanned the QR code or used any data.
5. You send us a screenshot or information demonstrating the incompatibility or lock.
6. The purchase was made less than 6 months ago.

4. Refund for Connectivity Issues

If your eSIM does not work due to a failure in the destination network or a technical issue with our providers, we may offer a partial or full refund. Before requesting it:

- You must contact our support team as soon as you detect the problem, via email at support@querosim.com or through the chat available on the website. We will try to resolve the issue immediately.
- We cannot guarantee a refund if you contact us after completing your trip or after consuming the plan.
- Depending on the data consumed, the refund may include a deduction for administrative costs (e.g., USD 3.50) and will be calculated proportionally.

5. Non-Refundable Cases

Refunds will not be granted when:

- The data limit of the plan has been reached or its validity has expired.
- The device is locked by the operator or is not unlocked, unless you had previously informed us.
- The lack of connection is due to User configuration errors, absence of coverage in the travel area, or usage restrictions established in the Fair Use Policy.
- It concerns the Always On service or other supplementary services indicated as non-refundable.

6. Refund Request Procedure

7. Send us an email to support@quierosim.com with the following information: full name and email address used in the purchase; order number or proof of payment; reason for the request and, if applicable, screenshots supporting the issue.
8. We will evaluate your request and respond within 5 business days. We may request additional information.
9. If the refund is approved, we will issue the return to the same payment method within 5 to 10 business days.

7. Amendments to This Policy

We may update this policy to reflect changes in our services or applicable regulations. Any amendment will be published on our website with the effective date. Continued use of our services after an update will imply acceptance of the new policy.
